**RULES AND REGULATIONS**

**GOVERNING PUBLICATIONS**

**ITEM 100** This tariff is governed, except as otherwise provided herein, by the following publications, including supplements thereto and subsequent reissues thereof AND is applicable on either INTERSTATE or INTRASTATE shipments, as the case may be, unless otherwise specifically indicated:

- (1) National Motor Freight Classification Series 100, Supplements thereto or reissues thereof.
- (2) Mileage Guide No. 16, ICC HGB 100 Series, Supplements thereto or reissues thereof. P C Miler Practical 2000

**DEFINITION OF "LTL"**

**ITEM 105** Less than truckload shall mean all shipments subject to LTL ratings in the NMFC Series 100, supplements thereto or reissues thereof, weighing less than 10,000 pounds and/or occupying less than 15 feet of floor space on a trailer. In the event Dayton Freight inadvertently accepts a shipment outside of these parameters, the shipment shall be rated per Item 568 of this rules tariff. Shipments weighing between 10,001 and 19,999 shall be rated at the 10,000 pound LTL rate level less any applicable discount also subject to rates as defined in provisions below. Shipments that exceed 20,000 pounds or more shall be rated at actual weight using the 10,000 LTL rate level less any applicable discount also subject to provisions noted below.

**Above provisions are subject to items 160, 568 and 930(5) of this tariff.**

Any shipment subject to cube or cubic capacity guidelines shall be determined by multiplying the length times the width times the height (LxWxH) of the actual pallet and be divided by 1728 to calculate the cubic feet. Any shipment that cannot stack upon itself due to the shape, configuration, or is determined by Dayton Freight to have insufficient packaging shall be subject to a height of 96 inches in calculating cubic feet.

**DEFAULT CLASSIFICATION**

**ITEM 107** In the event a shipment is inadvertently accepted for which a freight classification is not listed, NMF 100 series item number is not provided, or one cannot be established using the description on the bill of lading, a default class of 150 shall be applied to the shipment. However, upon proof of supporting documentation that shows clear evidence to arrive at the density of the shipment, it shall be rated at the applicable class shown below based on the density of the entire shipment. The density of the entire shipment will be calculated using the total weight divided by the total cubic feet.

At least 30 PCF or more – Class	65
At least 22.5 PCF but less than 30 PCF – Class	70
At least 15 PCF but less than 22.5 PCF – Class	85

**RULES AND REGULATIONS**

**DEFINITION OF "SHIPMENT"**

**ITEM 110** A "shipment" is a lot of freight received from one shipper at one point (or places within the confines of a single plant), on one day consigned to one consignee at one address and destination and covered by one Bill of Lading.

**APPLICATION OF TARIFF**

**ITEM 150** The provisions of this Tariff apply in connection with any published class or Commodity Rate Tariff or Contract Rate (unless otherwise specifically mentioned), issued by DAYTON FREIGHT LINES, INC., or subsidiaries thereof (Kelley Transportation) and will be applicable on either INTERSTATE or INTRASTATE shipments, as the case may be.

**ALTERNATE APPLICATION OF RATES AND WEIGHTS**

**ITEM 160** In no case shall the charge for any LTL shipment be greater than the charge for a greater quantity of the same kind of freight at the rate and weight applicable to such greater quantity of freight.

**APPLICATION OF LOADING/UNLOADING ALLOWANCES**

**ITEM 315** (1) Loading or unloading allowances shall be based on Carrier's actual cost of service provided by shipper or consignee which service should (or would) normally be provided by the Carrier.

(2) Loading or unloading allowances based on weight shall be extended to actual weight only and not to "as weights". IE: "800 pounds as 1,000 pounds", the allowance shall be applied to the actual weight of 800 pounds.

**PAYMENT OF CHARGES**

**ITEM 336** Freight charges are due and payable within fifteen (15) calendar days plus a grace period of fifteen (15) calendar days, resulting in maximum payment terms not to exceed 30 calendar days. When a properly rated freight bill remains unpaid after a period of 100 days, carrier will forward such bill(s) to an outside Collection Agency for collection purposes. At the time of the forwarding to such outside agency, any discount which had been extended on the original freight bill(s) will be revoked and Collection Agency (or carrier) will collect the gross amount of such original freight bill(s). The gross amount will be the freight charges before any discount which may have been extended at the time of subject shipment(s). In addition, debtor will be responsible for attorney fees and/or court costs associated with or as a result of suit. When a shipment is issued for payment of a carrier's freight bill and is returned unpaid due to insufficient funds, stop payments or closed account, an additional charge of \$50.00 will apply.

When loading or unloading is delayed, the charge per vehicle for each additional 15 minutes, or fraction thereof, beyond the stated free time will be \$50.00 subject to a minimum of \$55.00. When Shipper tenders or Consignee receives more than one LTL shipment, the combined weight shall be used to determine the free time. Free time is stated in Note B.
- TL:**    Truckload shall be defined as any shipment in excess of 10,000 pounds or any shipment classified as exclusive use. Detention for vehicles with power units shall begin 60 minutes after the driver, or a party for the carrier has notified Shipper or Consignee, whichever is applicable. Spotted trailers shall be allowed 12 free hours for the purpose of loading or unloading and the BOL / delivery receipt must be noted as "Shipper Load and Count" / "Consignee Unload and Count" accordingly. Carrier's liability for the freight shall begin after carrier takes possession of the trailer from the spotted location or drops the trailer at the unloading location. Detention charges for trailers without power shall begin after the expiration of the free time. A flat charge of \$150.00 per day shall apply.

**NOTE B:**    Free time shall be calculated as follows:

**NOTE D:**    In the case where multiple bills are being picked up or delivered and based on the combined weight the free time is exceeded as identified in Note B, the detention charges shall be prorated based on the fraction of the weight of each individual shipment of the total weight and invoiced on a per shipment basis.

**NOTE E:**    The charges in this item shall be assessed against the payor of the freight charges as identified on the original Bill of Lading.

**NOTE F:**    Detention shall be applicable to appointment deliveries provided Carrier arrives at the appointment location within sixty (60) minutes of the set appointment time.

RULES AND REGULATIONS

LINEAR FOOT

**ITEM 568** Any single LTL shipment requiring 15 or more linear feet or fraction thereof (180" or more) of a vehicle across more than half of the useable width of the trailer, is subject to charges being based on the following shipment actual density and pounds per linear foot guidelines:

<u>Actual Shipment Density</u>	<u>Shipment Rated at Pounds per Linear Foot</u>
At least 22.5 PCF or greater	1,250 lbs. per LF
At least 10.5 but less than 22.5 PCF	1,000 lbs. per LF
At least 6 but less than 10.5 PCF	750 lbs. per LF
Less than 6 PCF	500 lbs. per LF

This item is applicable when the shipment requiring 15 or more linear feet or fraction thereof (180" or more) meets one or both of the following conditions:

- (1) The quantity of freight which, due to its shape, weight, or dimensions (See Notes 1 and 2) or because of its need to be segregated from other freight, requires 15 or more linear feet or fraction thereof (180" or more) across more than half of the useable width of the trailer.
- (2) The shipper requests on the BOL or applies instructions on the freight itself stating the shipment is to not to be double stacked preventing carrier from efficiently using the available cube of a trailer. In such cases, the linear feet occupied by the shipment shall be figured on the basis of the total linear feet used. Freight charges shall be determined using the actual class (FAK provisions shall not apply), appropriate scale of rates, less the applicable discount. Shipments of 20,000 pounds and up will be rated using the 10,000 pound scale of rates less any applicable discount.

**Above provision is subject to Item 930(5) of this tariff.**

Note 1: Shape, weight, or dimensions are defined as follows:

- a. Nature of the article
- b. Packaging or lack of packaging
- c. Pallets are "pyramided, "rounded off", or "topped off"
- d. Similar like-sized pallets will not load side by side and/or on themselves
- e. Weight of shipment cannot exceed 1,000 pounds per linear foot on Carrier's equipment. Should actual shipment weight exceed 1,000 pounds per linear foot of trailer space, the actual weight shall be divided by 1,000 to arrive at the linear feet assessed. For example: a shipment that occupies 14 linear feet but has an actual weight of 18,000 lbs. would be assessed a linear foot application of 18 feet.

Note 2:

- a. At carrier's sole discretion, multiple shipments from the same shipper on the same day to the same Consignee may be considered as one shipment for the provision of this item.
- b. For the purposes of calculating density to determine the proper freight classification, the actual weight noted on the original Bill of Lading of shipment in question shall be used, unless certified inspection performed.
- c. Dayton Freight shall not be held liable to pinwheel or turn pallets to reduce the amount of linear feet utilized by the shipper.

Note 3:

- a. Please refer to the table below for sample applications:

**RULES AND REGULATIONS**

**BILLS OF LADING – CORRECTED**

**ITEM 646** Corrected bills of lading or other instructions to change the freight charges collection status from prepaid to collect will not be accepted after the shipment has been delivered.

A corrected bill of lading to change the original freight charges collection status from prepaid to collect will not be accepted if Section 7 (the non-recourse clause) of the corrected bill of lading has been signed. If the corrected bill of lading is inadvertently accepted and Section 7 has been signed, the signature will be considered invalid.

A charge of \$30.00 will be assessed against the payer of the freight charges for processing such corrected bills of lading. RULES AND REGULATIONS

**FULL VALUE INSURANCE**

**ITEM 995**

At the Carrier's discretion, if a customer wishes to purchase full value insurance coverage for shipments moving by land within the 48 contiguous states, the following rules and charges will apply:

1. The shipper must request the coverage in writing on the Bill of Lading at the time of the shipment providing the invoice value of the goods.
2. The insurance will cover 110% of the invoice value of the goods, plus actual freight charges, subject to a maximum of \$250,000.00 per shipment.
3. Bill of Lading must be noted as follows:  
"Full Value Insurance Coverage Requested – Invoice Value: \$ \_\_\_\_\_"  
Example:  
To request Full Value Insurance Coverage, on a shipment with an invoice value of \$35,000.00, the shipper must show the following on the Bill of Lading.  
"Full Value Insurance Coverage Requested – Invoice Value \$35,000.00."
4. DAFG will assess a charge of \$.85 per \$100 on 110% of the sum of both the invoice value (as stated on the bill of lading), and actual freight charges, all subject to a minimum charge of \$50.00 per shipment for Full Value Insurance. Charges are to be paid by the party responsible for the payment of the otherwise applicable freight charges.

**Example:**

Invoice Value declared on freight bill \$35,000

Hypothetical freight charge is \$105

Amount of coverage = \$35,105 plus 10% = \$38,615.50

Charge at \$.85 per \$100: \$38,615.50 = 386.16 (\$100 units);

386.16 multiplied by \$.85 = \$328.24 = Full Value Insurance Coverage Fee

5. Insurance coverage will exclude rust, oxidation, and discoloration. This is first dollar coverage and does not exempt loss and/or damage cause by Force Majeure conditions.
