Less than truckload shall mean all shipments subject to LTL ratings in the NMFC Series 100, supplements thereto or reissues thereof, weighing less than 10,000 pounds and/or occupying less than 15 feet of floor space on a trailer. In the event Dayton Freight inadvertently accepts a shipment outside of these parameters, the shipment shall be rated per Item 568 of this rules tariff. Shipments weighing between 10,001 and 19,999 shall be rated at the 10,000 pound LTL rate level less any applicable discount also subject to rates as defined in provisions below. Shipments that exceed 20,000 pounds or more shall be rated at actual weight using the 10,000 LTL rate level less any applicable discount also subject to provisions noted below.

Above provisions are subject to items 160, 568 and 930(5) of this tariff.

Any shipment subject to cube or cubic capacity guidelines shall be determined by multiplying the length times the width times the height (LxWxH) of the actual pallet and be divided by 1728 to calculate the cubic feet. Any shipment that cannot stack upon itself due to the shape, configuration, or is determined by Dayton Freight to have insufficient packaging shall be subject to a height of 96 inches in calculating cubic feet.

ITEM 107 DEFAULT CLASSIFICATION

In the event a shipment is inadvertently accepted **and the BOL does not satisfy the requirements according to NMF-10 ITEM 250100** for which a freight classification is not provided, **it contains an inaccurate item number per NMF-100, it contains an expired item number per NMF-100**, or one cannot be established using the description on the bill of lading, a default classification of **175** shall be applied to the shipment. However, upon proof of supporting documentation that shows clear evidence to arrive at the density of the shipment, it shall be rated at the applicable class shown on the table below based on the density of the entire shipment. The density of the entire shipment will be calculated using the total weight of the entire shipment divided by the total cubic feet of the entire shipment.

If during any annual period Shipper fails to tender the minimum number of shipments other than by a Force Majeure cause, Dayton Freight Lines, Inc. reserves the right at its sole discretion and without notice to migrate the established pricing program to its most current DAFG rate base subject to a 50% gratuity discount, its most recent DAFG rules tariff, its most recent DAFG fuel surcharge table, and remove any class exceptions that may exist.

RULES AND REGULATIONS

ITEM 110 DEFINITION OF "SHIPMENT"

A "shipment" is a lot of freight received from one shipper at one point (or places within the confines of a single plant), on one day consigned to one consignee at one address and destination and covered by one Bill of Lading.

ITEM 150 APPLICATION OF TARIFF

The provisions of this Tariff apply in connection with any published class or Commodity Rate Tariff or Contract Rate (unless otherwise specifically mentioned), issued by DAYTON FREIGHT LINES, INC., or subsidiaries thereof (Kelley Transportation) and will be applicable on either INTERSTATE or INTRASTATE shipments, as the case may be.

ITEM 160 ALTERNATE APPLICATION OF RATES AND WEIGHTS

In no case shall the charge for any LTL shipment be greater than the charge for a greater quantity of the same kind of freight at the rate and weight applicable to such greater quantity of freight.

ITEM 315 APPLICATION OF LOADING/UNLOADING ALLOWANCES

1. Loading or unloading allowances shall be based on Carrier's actual cost of service provided by shipper or consignee which service should (or would) normally be provided by the Carrier.
2. Loading or unloading allowances based on weight shall be extended to actual weight only and not to "as weights". IE: "800 pounds as 1,000 pounds", the allowance shall be applied to the actual weight of 800 pounds.

ITEM 336 PAYMENT OF CHARGES

Freight charges are due and payable within fifteen (15) calendar days plus a grace period of fifteen (15) calendar days, resulting in maximum payment terms not to exceed 30 calendar days. When a properly rated freight bill remains unpaid after a period of 100 days, carrier will forward such bill(s) to an outside Collection Agency for collection purposes. At the time of the forwarding to such outside agency, any discount which had been extended on the original freight bill(s) will be revoked and Collection Agency (or carrier) will collect the gross amount of such original freight bill(s). The gross amount will be the freight charges before any discount which may have been extended at the time of subject shipment(s).

RULES AND REGULATIONS

ITEM 568 LINEAR FOOT

Any single LTL shipment requiring 15 or more linear feet or fraction thereof (180" or more) of a vehicle across more than half of the useable width of the trailer, is subject to charges being based on the following shipment actual density and pounds per linear foot guidelines:

<u>Actual Shipment Density</u> <u>per Linear Foot</u>	<u>Shipment Rated at Pounds</u>
At least 22.5 PCF or greater	1,250 lbs. per LF
At least 10.5 but less than 22.5 PCF	1,000 lbs. per LF
At least 6 but less than 10.5 PCF	750 lbs. per LF
Less than 6 PCF	500 lbs. per LF

This item is applicable when the shipment requiring 15 or more linear feet or fraction thereof (180" or more) meets one or both of the following conditions:

- (1) The quantity of freight which, due to its shape, weight, or dimensions (See Notes 1 and 2) or because of its need to be segregated from other freight, requires 15 or more linear feet or fraction thereof (180" or more) across more than half of the useable width of the trailer.
- (2) The shipper requests on the BOL or applies instructions on the freight itself stating the shipment is to not to be double stacked preventing carrier from efficiently using the available cube of a trailer. In such cases, the linear feet occupied by the shipment shall be figured on the basis of the total linear feet used. Freight charges shall be determined using the actual class (FAK provisions shall not apply), appropriate scale of rates, less the applicable discount. Shipments of 20,000 pounds and up will be rated using the 10,000 pound scale of rates less any applicable discount.

Above provision is subject to Item 930(5) of this tariff.

For example: a shipment that occupies 14 linear feet but has an actual weight of 18,000 lbs. would be assessed a linear foot application of 18 feet.

Note 2:

- a. At carrier’s sole discretion, multiple shipments from the same shipper on the same day to the same Consignee may be considered as one shipment for the provision of this item.
- b. For the purposes of calculating density to determine the proper freight classification, the actual weight noted on the original Bill of Lading of shipment in question shall be used, unless certified inspection performed.
- c. Dayton Freight shall not be held liable to pinwheel or turn pallets to reduce the amount of linear feet utilized by the shipper.

ITEM 645 MIXED SHIPMENT – TRUCKLOAD

Unless otherwise provided herein, when a number of different articles for which the same or different ratings or rates are provided in straight truckloads, are shipped at one time by one consignor to one consignee at one destination, as a truckload shipment, they will be charged for at the actual or authorized estimated weight and at the straight truckload rate (not mixed truckload rate) applicable to each article. The truckload minimum weight will be the highest provided for any article in the mixed truckload and any deficit in the minimum weight will be charged for at the lowest truckload rating or rate applicable to any article in the mixed truckload.

ITEM 646 BILLS OF LADING – CORRECTED

CBLFEE/CBLFEC

Corrected bills of lading or other instructions to change the freight charges collection status from prepaid to collect will not be accepted after the shipment has been delivered.

A corrected bill of lading to change the original freight charges collection status from prepaid to collect will not be accepted if Section 7 (the non-recourse clause) of the corrected bill of lading has been signed. If the corrected bill of lading is inadvertently accepted and Section 7 has been signed, the signature will be considered invalid.

A request to change the original freight charges collection status from collect to prepaid will require a corrected bill of lading from the shipper and the shipper must have established credit with the carrier. A charge of \$30.00 will be assessed against the payer of the freight charges for processing such corrected bills of lading. A charge of \$30.00 will be assessed against the payer of the freight charges for processing such corrected bills of lading.

- 3) Each truck, except truck carrying the excess, must be loaded as heavily as loading conditions will permit, to the loading capacity of the truck if practicable and each truck so loaded charged at actual authorized estimated weight, subject to the established truckload minimum weight and at the truckload rate or rating applicable.
- 4) The excess of quantity that can be loaded in or on one truck shall be charged at actual or authorized estimated weight, and at the truckload rate or rating applicable to the entire shipment, except when the excess freight occupies the loading capacity of the truck, such excess freight shall be considered as an additional truckload and charged for as provided in paragraph (3) of this item.

RULES AND REGULATIONS

ITEM 995 FULL VALUE INSURANCE

INSUR

At the Carrier's discretion, if a customer wishes to purchase full value insurance coverage for shipments moving by land within the 48 contiguous states, the following rules and charges will apply:

1. The shipper must request the coverage in writing on the Bill of Lading at the time of the shipment providing the invoice value of the goods.
2. The insurance will cover 110% of the invoice value of the goods, plus actual freight charges, subject to a maximum of \$250,000.00 per shipment.
3. Bill of Lading must be noted as follows:
"Full Value Insurance Coverage Requested – Invoice Value: \$_____"
Example:
To request Full Value Insurance Coverage, on a shipment with an invoice value of \$35,000.00, the shipper must show the following on the Bill of Lading.
"Full Value Insurance Coverage Requested – Invoice Value \$35,000.00."
4. DAFG will assess a charge of \$.85 per \$100 on 110% of the sum of both the invoice value (as stated on the bill of lading), and actual freight charges, all subject to a minimum charge of \$50.00 per shipment for Full Value Insurance. Charges are to be paid by the party responsible for the payment of the otherwise applicable freight charges.

Example:

Invoice Value declared on freight bill \$35,000

Hypothetical freight charge is \$105

Amount of coverage = \$35,105 plus 10% = \$38,615.50

Charge at \$.85 per \$100: \$38,615.50 = 386.16 (\$100 units);

386.16 multiplied by \$.85 = \$328.24 = Full Value Insurance Coverage Fee

5. Insurance coverage will exclude rust, oxidation, and discoloration. This is first dollar coverage and does not exempt loss and/or damage cause by Force Majeure conditions.
